**Viewing Portraits:** Exposure/cropping can be adjusted. View "Show" first, write down your favorite file numbers; then go to the "PDFs" to see it up close. Show plays continuously; the PDF can be enlarged for on screen viewing but can't be printed out. These are LOW RES files; portraits are printed from HIGH RES files.

**We provided a CD as a favor for the Newark students who attended the prom. Additional CDs Shows of the event are available at \$15 each.** Double click on the show's icon and decide if you want it as a screen saver or just to play. While the show is playing, double right click on a photo and you will have several options. You can change the time each image is being viewed, change the transition style, etc.

Individual files are "exportable", since the school or organization purchased the CD Show as a Favor. You'll be able to tell when you double right click on an image while the show is playing. These images can be put in your emails and "MySpace" -

"Faces", in you IM profile and many other electronic uses. See us for reprints please.
